## Mt everest guided expeditions

Mountain Trip's guided Mount Everest Climbing Expeditions offer the highest level of service to give you the best chance of succeeding on this climb. An expedition to the highest peak in the world often represents the run-out of a climber's mountaineering career, decisions whether it tries or not and with whom to go and climb it should not be taken lightly. We specialize in small teams, focused on safety and achieving the summit. Our teams are led by experienced Everest Guides who like to be there and have shown they have the leadership to get the team to the top! We lead professionally led Mount Everest climbing expeditions from both the South (Nepal) and North (Tibet) side of the mountain. All the logistical support and leadership needed to make it a successful climbing expedition are included in the travel fee. Our Sherpa team is highly experienced and our American guides are the best in the industry. Mountain Trip is an American Mountain Guides Association (AMGA) accredited company, so you can be assured that your guides are not only experienced but are also trained to the highest standards. We don't offer Sherpa Led expeditions with a guide or travel leader in Base Camp as it's just not consistent with our approach to guidance. Unlike many other Mount Everest climbing expeditions offered by guide services or outfits providing logistical support, our expedition contains no hidden costs, extras or add-ons. We know that a company like this is very stressful and we try to remove as much of the potential stress that is under our control as possible to allow our Everest climbers to focus on the task of climbing the highest mountain in the world. We offer 9 bottles of Oxygen per climber, allowing us to climb at high flow oxygen on summit day and the flexibility to take a rest day or wait for weather at a high camp if necessary. Our Everest climbing expedition will provide all the leadership and logistics needed to climb Mt. Everest. We have our own luxury base camp, Sherpa cooks and staff. The Everest climbing team will consist of a maximum of 4 climbers per U.S. guide, and will be supported by an average of two Sherpas per climber. This depth of Sherpa experience, coupled with low proportions of Mountain Trip guides gives our climbers an industry a high level of support on the mountain. Logistical preparations are crucial to a guided Everest climbing expedition, and our experience and that of our team will provide you with unmatched support. This is a great opportunity for qualified climbers to join a very well-organised Everest trip with a proven and experienced Sherpa team, base camp services, oxygen systems, high-tech communication and medical support. If the weather works together and you put in the proper training that requires such an effort, we feel that our acclimatization schedule and provide you with the best possible chance of reaching the summit. Family or Friends Friends in joining the trek to Everest Base Camp? They can join a trek with the team and enjoy the excitement of the journey, without the climb. Check out this option on our Everest Base Camp Trek page. Anyone considering an effort on Mount Everest should contact Mountain Trip as far as possible for additional information and to help us better determine if it is an appropriate decision for you to make at this time. [v\_c\_row] Maximum Height: 8,848m/29,029ft Total Duration: 62 Days Coordinates: 27.9881°N, 86.9250°E Climbing Route: Southeast Ridge First Ascent: May 29, 1953 Grade: Strictly + Group Size: Max 12 Activity: Mountaineering and Climbing Next Date: 04 April – 04 June, 2021 Mount Everest [8,848m/29,029ft] being the highest mountain in the world is the ultimate dream of every climber. Climbing to Everest is undoubtedly the ultimate mountaineering adventure and every adventure seeker wants to be part of a rich history of Everest Climbing, but the journey to the summit of Everest is not without challenges. With more than decades of experience in leading groups to the summit of Mt. Everest, we have made many people dream successfully. Why Join us on our Everest Expedition 2021? Led by some of the best guides and experienced Sherpa team. 1:1 Sherpa guide to climber ratio and UIAGM/IFMGA Guide to help The ascent of Lobuche peak for acclimatization Maximum oxygen and support Premier climbing experience on Everest a coherent team of climbers (Maximum 8 climbers in one group) A long history of high altitude expeditions Climbing overview Our Everest expedition it designed with experience, planned and careful attention allowing maximum days for the approach, highest level of service and strong team of guides. We offer expeditions with safety priority and service crucial. We provide more oxygen support and provide a comfortable logistics at base camp and Camp 2. We follow the standard draw route to Everest base camp to Namche Bazar, Tengboche, Dingboche, Lobuche, Gorekshep and finally Everest base camp. Upon arriving at Base Camp, settle down and get organized as we prepare for the actual climb. A pre-training session will be held at the base camp, ice shelters from the lower Khumbu Glacier to check climbers' equipment and review climbing and rescue techniques. You'll also climb Lobuche East as part of your acclimatization climbs instead of regular rotations in Khumbu icefall. Lobuche East is one of the most exciting 6000m draw peaks in the Everest Region. Lobuche east climbing serves as a perfect training base for Everest Expeditions and that's what we would do at Highland Expeditions too. You'll climb Lobuche east wearing your high altitude boots and equipment to make you feel comfortable. This highlight provides not only an attractive distraction, but an excellent part of the acclimatization process, while allowing members to refresh and update mountain skills before moving on to Everest. Lobuche East Peak East Peak after the actual Everest climb has not only helped in acclimatization, but the climbers won't have to go through the Khumbu Ice Falls several times for rotation of higher camps. After the climb, we go to base camp and between looking at an eye-catching date as per Tibetan calendar we will organize Puja ceremony in traditional Sherpa manner calling for blessings for successful Everest Climbing. Our second acclimatization phase begins with the rotation of higher enclosures passing by notorious Khumbu ice falls. Four camps will be set up above from base camp. We will prepare Camp1 (5,900m/19,500ft) at the height of the ice fall, Camp2 (6,400m/21,000ft) in West Cwm, which will be our Advanced Base Camp. We'll set up Camp 3 (7,300m/23,700ft) at the top of the cirque on Lhotse Face. Camp 4 (7,900m/25,912ft) will be the final camp before climbing summit. Camp 4 will be on the South Col. Placed For the acclimatization, please note that this acclimatization programme may differ during the expedition period after the period of lambing as each climber adjusts differently with a height. Your expedition leader will best imagine you as per your conditions. In general, our acclimatization program includes overnight at Camp 2 and marks the Lhotse Face/Camp 3. When this is done, we rest and recover at base camp as we wait for the weather window for the summit effort. Oxygen cylinders will be used after Camp 3 for an easy ascent. We offer 8 bottles of oxygen to each climber for maximum flow. From Camp 4, following the southeast ridge, we will make it to the South Summit from where we will progress to Hillary step before climbing to the summit. Why is Everest climbing with us? For more than 30 yrs the people who hold this business have been successfully organizing high altitude Expeditions ensure safety first and service crucial. The success of the expedition largely depends on a carefully planned route and best logistics and that's what we offer. We are committed to maintaining the expedition safely and success with the quality of service. Our emphasis is always on maintaining the small group so that it will be easy to coordinate and collaborate with each other. You will be guided by highly professional mountain guides and they are among the best in this field and have experience of successful climbing Everest several times. Our guides, Sherpas, and support staff bring decades of safe successful summits to the table, and our climbing strategy reflects that. Every year we offer fully guided expeditions with the support of the legendary Sherpas. Our 1 to 1 Sherpa to customer relationship and 1 to 4 leader to customer relationship on summit days shows our commitment to providing safe climbing strategies. Compared to the facilities we provide, you will find our Everest Expeditionary cost to be very reasonable. We have no hidden fee. What you pay in the beginning is the final payment. We dedicated to providing the highest professionalism throughout the expedition by taking the utmost care of all the needed for our Everest Expedition, Expedition Leader/Guide Our Everest Expedition 2021 will be run by Kunga Sherpa, an Everest summit itself. With more than 35 years of experience in the climbing industry, he has managed more than forty above 8000m expeditions to date. For 2021, our Everest Expedition leader Will Be Pasang Tenzing Sherpa, UIAGM/IFMGA Guide with more than 11 summits of Everest under his belt. 1:1 Sherpa to customer relationship on summit day Most of our Sherpa guides come from Rolwaling and Thame. All our Sherpa guides are previous Everest summits with detailed experience at high altitude expeditions. We offer 1:1 Sherpa guide to customer relationship on the summit day. Each of our Sherpa guides has tons of experience in climbing high altitude peaks. Our Sherpa teams are critical to the success of your climb you do with us. We, our professionally trained Sherpa guides & sirdars that just don't have hikers and climbers on the mountains but are trained to perform this task with a lot of common sense and deceit. Kunga Sherpa, Everest Summit and founder of Highland Expeditions, which successfully led and organized more than 40 expeditions to 8000m as an expedition sirdar oversees our experienced Sherpa crew who will be on the climb with you. We ensure that they are confident and experienced. Most of our guides were born in these parts & have family members who live on other parts of the regions where they were born. We know that locally born staff are an important cog in that wheel of sometimes dangerous adventure where anything can happen. At Highland Expeditions, we always make sure our mountain teams are highly motivated and never compromise. Local company with decades of high altitude experience Highland Expeditions is a fully licensed and registered company that has high altitude trips in the Himalayas. The people who hold this venture have been leading high altitude expeditions since 1992 and we are proud to be able to offer personal expeditions to Mt. Everest with safety priority and service privilege. We operate a small team of coherent climbers with the support of our experienced sherpa guides who have all signaled Everest before. We only take 8 climbers in a team and offer Nepali UIAGM/IFMGA Expedition leader with 1:1 sherpa guide to customer ratio with maximum oxygen support and comfortable logistical arrangements. Join us and be part of the 'Highland Expeditions' family. It's a not-forthcoming feeling and it will live with the generations to come. Important Note: Your safety is of vital concern while travelling with Highland Expeditions. Please make careful to note that your leader/guide has the authority to edit or cancel any part of the travel book if deemed necessary because of your safety concerns. Every effort will be made to keep the above-mentioned terrain; However, since this adventure involves travelling in remote mountainous regions, we cannot guarantee that we will not deviate from it. Weather or health condition health condition a group member, unexpected natural disasters, etc., can all contribute to changes in the site. The Trek & Climbing Leader/guide will try to ensure that the journey runs according to plan, but please be prepared to be flexible if necessary. Required.
